NOTE FOR THE C/PS

- Thanks
- The Appendix Charts:

My exposure to some technical collection systems is so infrequent that my feeble brain forgets. I would find it useful to have a short 1-2 paragraph description of each of the SIGINT, Imagery and "Other" systems listed in those charts. Not urgent.

Yesterday we forwarded to you the  
version of the 1985 Capabilities Study Review  
meant for general distribution

We managed to cut the TCS out of  
the attached "speculative" version, which  
was not disseminated to Program Managers.  
It contains DR references which were  
embargoed by DDCI & D/NRO.
